Senseco Acquire Sprinkler Company CW Fire

We are delighted to announce that Senseco completed the acquisition of the much respected, quality sprinkler contractor "CW Fire" in 2021. CW Fire have been in business for over 30 years and have built a very strong reputation in that time. They have been a key supplier to Senseco Systems for the last few years as a subcontractor and have now become part of the Senseco Family.

This is a very exciting development and means that Senseco Systems will be able to offer a full LPS1048 certified design, installation and maintenance service for Sprinkler Systems and associated mechanical services as part of our industry leading electrical and mechanical offering of fire, suppression, security, voice and integrated systems.

Whilst as Senseco we can offer combined solutions, CW Fire continue to operate as a limited company with full LPS1048 Level 3 accreditation from their offices in Sidcup, Kent supporting a very loyal client base. But we can confirm that CW Fire are wholly owned by Senseco Systems Ltd.

CW Fire Solutions Ltd
